AGING INDIVIDUALS

I-REACH 2, Inc. recognizes the importance of continuing services to aging individuals in all program areas. Every attempt will be made to offer options and choices to create an individualized plan of care which may include receiving services in non-traditional ways, provided the service delivery meets Medicaid Home and Community Based waiver standards and Wyoming Behavioral Health rules. In the planning process, each person's supports will be based on their functional needs and personal preferences, not their chronological age. In addition, annual training will be provided to staff on ongoing aging issues. Outside senior referral sources, such as the Casper Senior Center and

Wyoming Dementia Care will be consulted for additional training and education.

INELIGIBILITY

After careful review of all I-REACH 2, Inc. program entrance criteria, individual participant needs, preferences, goals, health and safety information, the I-REACH 2, Inc. administrative team ultimately makes the final determination as to eligibility or INELIGIBILITY of an individual for any program service area. When a person is found ineligible for the I-REACH 2, Inc. program, the individual, their case manager, and guardian, where applicable, will be notified by the Community Living & Employment Coordinator and documented on the service inquiry log.

Additional resources, referrals and recommendation shall be considered and documented whenever I-REACH 2, Inc. cannot provide service to an individual.

WAITING LIST

In the event enrollment at I-REACH 2, Inc. reaches 50 waiver individuals in all program areas and/or we are at our staffing capacity, a waiting list will be established for those seeking services. This list will be tracked through the Service Inquiry document maintained by the Executive Director. All services inquiries are discussed in bi-weekly leadership meetings. The waiting list will be created based on the date the services were requested by the team, need and availability based on the individual's service area request, and whether the individual has waiver funding.

Individuals with waiver funding will take precedent over non-waiver individuals. In the event, more than one waiver funded individual is on the waiting list we will consider an individual's level of supervision, service need, exploitation risk, and other extenuating factors.
